

NICEIC TRAINING THAT WORKS FOR YOU

At the NICEIC we recognise the importance of raising technical standards and improving the competence within the industry, helping contractors develop professionally through enhancing their knowledge and skills and providing innovative solutions as technology evolves and training needs change. All of our courses are developed by leading industry experts with a wealth of experience, ensuring our training is current and up to date with all relevant standards.

Our training courses are delivered across various channels to suit your needs:

Classroom - at venues across the UK.

Virtual classroom - learn from the comfort of your own home with a live tutor.

E-Learning - access learning 24/7 when it's convenient for you.

In-House - face to face or virtually this option is great for organisations wanting to train a number of employees, minimising costs.
