

# EXTENSION TO REGISTRATION APPLICATION FORM

## ELECTRICAL WORK IN POTENTIALLY EXPLOSIVE ATMOSPHERES

### 1 APPLICANT BUSINESS

Trading Title of Business:

(as registered with NICEIC Approved Contractor Scheme)

Registration No:

Address:

Postal Town:

County:

Postcode:

Telephone No:

Business Email:

Does your business subcontract (outsource) any of its activities?

Yes

No

If yes, please detail the activities: Examples: Scaffolding, Design, etc

### 2 PUBLIC LIABILITY INSURANCE

I confirm that the business's public liability insurance policy covers electrical work in potentially explosive atmospheres

Yes

No

### 3 PROPOSED QUALIFIED SUPERVISOR(S) (HA)

The following are proposed to be Qualified Supervisors (HA) with particular responsibility for electrical work in potentially explosive atmospheres

Name: (BLOCK CAPITALS)

Currently registered with NICEIC as a Qualified Supervisor for the business\*

1\*\*

Yes

No

2\*\*

Yes

No

3\*\*

Yes

No

\* Proposed Qualified Supervisors (HA) who are not currently registered with the NICEIC Approved Contractor Scheme as Qualified Supervisor(s) will need to be separately assessed for compliance with 5(3) of the NICEIC Rules Relating to Registration before the on-site assessment of electrical work in hazardous areas can proceed - see also the 'Hazardous Area Scheme, Guide to Registration'

\*\* A separate Qualified Supervisor (HA) Application form is required for each person

#### 4 **RANGE AND SCOPE OF EXTENSION TO REGISTRATION FOR HAZARDOUS AREA APPROVAL**

Explosive Gas/Vapour (G)

Intrinsic Safety (I)

Filling Stations (F)

Combustible Dusts (D)

Water/Sewage Treatment (W)

Other

#### 5 **TYPICAL LOCATIONS IN WHICH HAZARDOUS AREA WORK IS UNDERTAKEN FROM THE ADDRESS IN SECTION 1 (FOR EXAMPLE: FILLING STATIONS, OIL REFINERIES, FLOUR MILLS)**

1

2

3

4

5

6

#### 6 **ELECTRICAL PERSONNEL INVOLVED IN HAZARDOUS AREA WORK, MANAGED FROM THE ADDRESS IN SECTION 1**

Number of supervisors including proposed Qualified Supervisors (HA):

Number of operatives:

Number of trainees:

Training and experience records available: Yes

#### 7 **TECHNICAL REFERENCE DOCUMENTS HELD AT THE ADDRESS IN SECTION 1**

The latest edition of the following technical reference documents are held:

##### **BS EN 60079 Electrical apparatus for explosive gas atmospheres:**

Part 10-1 - Classification of hazardous areas

Yes

Part 14 - Electrical installations in hazardous areas

Yes

Part 17 - Inspection & maintenance of electrical installations

Yes

##### **BS EN 60079 Electrical apparatus for the use in the presence of combustible dusts:**

Part 10-2 - Classification of hazardous areas

Yes

Part 14 - Electrical installations in hazardous areas

Yes

Part 17 - Inspection & maintenance of electrical installations

Yes

##### **EEMUA Practitioners Handbook (Publication No 186)**

Yes

##### **IP/APEA Filling Station Guide**

Yes

For those businesses undertaking work only in filling stations the IP/APEA Filling Station Guidance is the only reference document required to be held.

#### 8 **DECLARATION**

On behalf of the business indicated in Section 1, I confirm that the details given on this form are true and complete. I hereby apply for an extension to the scope of registration with the NICEIC to cover the range of hazardous area work indicated in Section 5. I confirm that the business has sufficient Hazardous Area work available for assessment. I have read and agree to the particular requirements relating to the extension of registration set out in the NICEIC 'Hazardous Area Scheme, Guide to Registration'. A separate application form for each of the proposed Qualified Supervisors (HA) named in Section 4 is enclosed, together with a cheque for the preassessment visit fee made payable to Certsure LLP. I understand that this fee is not refundable\*\*\*.

Signed (Registered Principal Duty Holder):

Name:

Date:

\*\*\*The application fee only includes for the Pre-assessment visit to the address indicated in Section 1, not for on-site assessment visits. See the Guide for further details.
