

Registration with Defined Approval

(Electrical work in non-hazardous areas)

When considering an application, the NICEIC may decide at its discretion to grant registration under 'Defined Approval' where the electrical installation work available for assessment is defined as a particular type (Rule 8(1)(b) of the Rules Relating to Enrolment refers).

Businesses enrolled with Defined Approval either carry out only a specific type of electrical installation work (such as street lighting), or carry out electrical work that is a small but inseparable part of the primary business (such as the installation of central heating systems).

Below is a list of areas of work covered by Defined Approval:

CATEGORY	AUTHORISED DESCRIPTION
01	Electrical Installations Associated with Central Heating Systems
02	Installation of Protection against Voltage and Electromagnetic Disturbances
03	Domestic Extractor Fan Installations
04	Electric Shower Installations
05	Domestic Water Heaters
06	Caravan Wiring
07	Installations Associated with Electrical Hygiene Equipment
08	Minor Works in Licensed Premises
09	Installations Associated with Coal Stokers
10	Installation of Instrumentation, Control Panels and Wiring to Associated Equipment
11	Installations Associated with Heating, Ventilation and Air Conditioning Systems (HEVAC)
12	Installations Related to Refrigeration Plant
14	Installation of Electric Generators
15	Installation of Power Factor Correction Capacitors
16	Installation of Illuminated Signs
18	Installations Associated with Laundry Equipment
19	Fire Detection and Alarm Installations
20	Emergency Lighting Installations
22	Low Voltage Cable Systems
23	Street and Exterior Lighting Systems
24	Installations for Quarrying, Aggregate Processing and Similar Activities
25	Stage Lighting and Similar Installations
26	Wiring of Prefabricated and Transportable Modular Buildings
27	Security Systems
28	Initial Verification and/or Periodic Inspection of Electrical Installation Work
29	Electrical Installations Associated with Pumping Equipment
30	Electrical Installations Associated with Telecommunications Systems
31	Electric Heater Installations
32	Installations Related to Industrial and Commercial Catering Equipment
33	Call Systems
34	Maintenance of Electrical Installations
35	Electrical Installations Related to Lifts
36	Data Communications and Associated Power Supplies
37	Installations Associated with Energy Management Systems
38	Shop-fitting Installations
39	Cathodic Protection Systems
40	Installations Associated with Exhibitions
