

Environmental and Energy Policy Statement

Our Commitment

As leading certification bodies within the UK electrical contracting and gas industries Certsure has brands servicing business, industry and government through assessment, certification, verification and support activities.

We recognise our responsibility to safeguard the environment and are committed to:

- The operation and continual improvement of an environment and energy management system throughout our operations in order to enhance our environmental and energy performance
- Protecting the environment, including preventing pollution and minimising the significant environmental impacts arising from our operations
- Encouraging modes of transport which minimise environmental impact, ensuring that our staff are aware of efficient driving practices and that our vehicles are maintained to operate at optimum environmental efficiency
- Ensuring the efficient and sustainable procurement of goods and use of all natural resources, including energy, water and consumables, consumed during our operations
- Considering environmental and energy performance in the design of new, modified and renovated facilities, systems and processes
- Setting and reviewing environmental and energy objectives and targets and ensuring that the information and resources needed to achieve these are available
- Comply with the letter and spirit of all relevant legislation and compliance obligations relating to the environment and energy
- Consider our waste disposal methods to minimise the impact on the environment; prioritising recovery and recycling
- Seek to manage and reduce business travel
- **Our Responsibilities**
- The Managing Director is responsible to the Board for our environmental performance and the implementation of this policy.
- Certsure employees have a responsibility in their area to ensure that the aims and objectives of the policy are met.
