SCHEME RULES

1. INTRODUCTION

Certsure LLP trading as NICEIC provides third party Certification services to Businesses that undertake the Design and/or installation and/or commissioning/handover and/or Maintenance of fire detection and fire alarm systems.

This Scheme has four modules in recognition of the fact that each module may be undertaken by a different organisation. A Business directly carrying out work, and wishing to be assessed in accordance with these Scheme Rules, may make an application for Certification. Where the Business's resources and work are subsequently assessed and found to meet these Scheme Rules, the Business may be granted Certification.
